A Carry Home Library

Sole Source Provider for Read With Me

Read With Me™

One Unit Set includes:
1 Teacher Pack
20 Books/CDs
10 Bags

A Parental Involvement Program for Grades Pre-K through 5

Read With Me™ is an educational reading enrichment program to complement existing ESL and other state and federally approved programs. It initiates parental support and quality time shared between parent and child, while providing easy documentation for meeting federal guidelines.

Read With Me™ introduces outstanding literature by award-winning authors and includes many titles on Accelerated Reader lists. It benefits At-Risk students and gives young readers the right tools for success.

Read With Me™ research indicates that a positive partnership between the school and the home can have an enormous influence on the student's performance in reading. The combined goal for parents and teachers should be to encourage children to love to read and enjoy books.

Classroom Suggestions For Teachers:

- ✓ Each program unit remains in the care of the teacher year after year. Students check out their *Carry Home Library* from the teacher and, after reading the books, return them to the classroom for discussion, allowing the books to be used by other students. This is a perpetual library with a return on the investment for students, teachers, and parents, as well as a wise use of sponsor's contribution.
- ✓ Students in levels Pre-K, K, and grades 1, 2, 3 are encouraged to take one **Read With Me™** title and bag home twice weekly.
- ✓ Students in grade levels 4 and up are encouraged to take one **Read With Me™** title and bag home each week and be allowed to keep it for one week. The upper level titles require more time at home because of the length and number of CDs.
- ✓ The teacher is encouraged to become familiar with the **Read With Me™** literature before presenting it to the students. As selections are being made, the teacher can tell the student something about the book that will get him/her excited about taking it home. If the teacher is enthusiastic about the books, the students will be. When the books are returned, the teacher can ask a simple comprehension question and get immediate feedback.
- ✓ The **Read With Me™** Library supports the classroom reading program. After two or more students have taken home the same title, they can work together in small groups, with activities that encourage cooperative learning. Some groups might be interested in doing a play or puppet show, or creating a mural.
- ✓ The **Read With Me™** Library can be used in classroom listening centers as a motivational technique to improve listening comprehension skills.

We always welcome ideas from teachers and like to post them on our website for others who might want to try something new.
